Kent Fiebelkorn
AGinfoDATA, LLC
1111 Hwy 25 North, Suite 202
Buffalo, MN 55313

Dear Mr. Fiebelkorn:

I wanted to take a few minutes to thank you and AGinfoDATA, LLC for your efforts in educating facilities in the agricultural pesticide distribution chain about EPA's pesticide container regulations. From June 2011 to March 2012, AGinfoDATA hosted over 15 webinars and invited Nancy Fitz of my staff to present the refillable container and repackaging requirements that went into effect on August 16, 2011. These webinars provided us an opportunity to present the regulations directly to retailers and distributors that we would not have otherwise reached. While Nancy has presented the regulations at a lot of meetings and Ag Expos across the country, it is impossible to reach everyone face-to-face. We appreciate you scheduling, hosting and organizing the educational webinars and inviting us to speak.

We also appreciate AginfoDATA's on-going work to explain EPA's container regulations to the industry. This includes linking to EPA's web page, posting EPA and state documents about the container regulations on your web site and contacting Nancy with questions to make sure you understand the regulations before providing information to your customers.

The U.S. Environmental Protection Agency cannot endorse any specific products or companies and this is not an endorsement of AginfoDATA's products, services or company policies. It is simply an acknowledgment that we appreciate your efforts in working to understand the pesticide container regulations and help educate the agricultural chemical distribution chain about the regulations.

Sincerely,

A handwritten signature in black ink that reads "Kevin Keaney".

Kevin Keaney, Chief
Certification and Worker Protection Branch
Office of Pesticide Programs
